## PROFESSIONAL PROFILE

Motivated Information Technology student currently completing a BSc in Software Engineering, with a solid foundation built through a Higher Certificate in Information Systems. I am a versatile and detail-oriented individual with strong communication and problem-solving skills, supported by practical exposure to IT support, technical marketing, and digital platforms. I have a strong interest in blending technical knowledge with creative solutions, particularly in WordPress development, SEO auditing, and UI/UX design. My long-term goal is to grow into a specialist role within IT and digital marketing, contributing to innovative projects while continuously developing my professional skills.
